MEMORANDUM FOR Director, Defense Finance and Accounting Services

SUBJECT: Access to Defense Finance and Accounting Services Data Sources

The purpose of this memorandum is to formalize the unrestricted access to authoritative source data, systems and the associated Subject Matter Experts and Database Administrators currently collected, created and used by the Defense Finance and Accounting Services (DFAS).

Last August, the Deputy Secretary of Defense (DEPSECDEF) directed and authorized the DoD Chief Information Officer (DoD CIO) and Deputy Chief Management Officer (DCMO) to conduct business process and system reviews across the 4th Estate Principal Staff Assistants, Agencies, and Field Activities. The DEPSECDEF has provided the DoD CIO with broad authority to request, collect, and analyze the Department's data as aggregated by the various organizations within the Department to include DFAS systems and data.

In order to reduce the normal administrative burden of multiple requests for access and to ensure the appropriate audit trail for access to systems, a single Systems Authorizations Access Request (SAAR or DD form 2875) will be provided to DFAS. Additionally, DFAS leadership should ensure that systems operators know and understand the objectives around the use of a single SAAR.

Finally, data residing within each system will be accessed by DoD CIO staff through a combination of direct access to individual databases and/or through secured data transfers where direct access is not technically feasible. In order to ensure a timely and knowledge-based transfer for data, DFAS is asked to concurrently provide subject matter and technical experts who understand data content, and the architecture for each system.

We will be moving out quickly in order to begin the transfer of data which we anticipate will begin within the next ten business days. My point of contact for this effort is Mr. Kevin Garrison, [kevin.garrison1.civ@mail.mil](mailto:kevin.garrison1.civ@mail.mil), (571) 372-4473.

Terry A. Halvorsen
