

Department of Defense

DoD ITEP Detail Opportunity: Seeking private sector IT Professional (Cyber Remote Training Development)

Location: Office of the DoD Chief Information Officer, Office of Defense-wide Information Assurance Program (DIAP). The detail is located at a Defense Information Systems Agency (DISA) facility in Ft. Meade, MD or Quantico, VA

Clearance Requirement: Top Secret(SCI)

Length: 1-year detail

Announcement Date: June 27, 2011

The Information Technology Exchange Program (ITEP) pilot provides a unique opportunity for DoD Components and private sector organizations to share best practices, and to gain a better understanding of each other's IT practices and challenges. Under this collaborative learning venture, DoD and private industry organizations will have a unique opportunity to share best practices and enhance employee/organizational capabilities through personnel details that range in length from 3 months to 1 year and encompass a broad range of IT functional areas.

This detail is for one year with the Defense-wide Information Assurance Program (DIAP). The DIAP provides for the planning, coordination, integration and oversight of the Department's IA activities and resources. The DIAP forms the Department's core organizing element for central oversight while retaining decentralized execution to realize continuous improvement in the IA posture to protect the Department's networks. The DIAP's central coordination and oversight activities enable the Department to develop, validate, integrate, and prioritize DoD-wide IA requirements and to assess defense-in-depth efforts to protect the critical elements of Network Information & Integration.

Basic Eligibility Requirements

Private sector employees desiring to participate in the ITEP pilot must: 1) be working in the IT field; 2) be a US citizen, subject to a background/suitability investigation; 3) be equivalent to a GS-11 or above; 3) meet or exceed successful performance levels and makes significant contributions towards achieving organizational goals; and 4) be currently employed by an organization interested in participating in the ITEP pilot. The supervisor and company approval must be obtained for ITEP detail opportunities.

Goals and Objectives of the ITEP Participant

- Gains an understanding of the challenges associated with the development of realistic training delivered remotely and often virtually through a cyber range environment
- Contributes to analysis and evaluation of a working model to provide dynamic training using a virtual range environment
- Provides opportunities to understand the mission of the DoD CIO, how its policies are developed and implemented
- Gains understanding of how the DIAP works with internal DoD and external partners

Responsibilities

- Provides technical advice and assistance in the coordination, development, and management of a working model to provide realistic, value-added training via a DoD range environment
- Assists in ensuring, the confidentiality, integrity, and availability of systems, networks, and data through the planning, analysis, development, implementation, maintenance, and enhancement of information systems security programs, and tools

Desired Competencies and Skills

- Experience in information assurance and training delivery methods
- Experience with DoD virtual range environments

Benefits

- Provides an opportunity for DoD and private sector organizations to share best practices and enhance employee/organizational capabilities
- Affords the government the opportunity to learn about new and emerging technologies in the area of virtual training delivery
- Provides forums for the ITEP participant to interact with various DoD Components and external organizations

Salary and Allowances

The lending organization has full responsibility for payment of all salary and allowances to their employees participating in the ITEP pilot.
