Ms. Margie Graves
Acting U.S. Chief Information Officer

Margaret (Margie) H. Graves is Acting Federal CIO and the Deputy Federal CIO for the Office of the Federal Chief Information Officer at the White House Office of Management and Budget. The Office of the Federal Chief Information Officer drives value in Federal IT, delivers world-class digital services, protects Federal IT assets and information, and develops the next generation IT workforce. In her role, Margie works to improve the way Government delivers results and technology services to the public.

Previously, Margie served as the Deputy CIO at the U.S. Department of Homeland Security (DHS). As the Deputy CIO, she had oversight of an IT portfolio of \$5.4 billion in programs. In addition, she managed the operations of the Office of the Chief Information Officer, covering the functional areas of Applied Technology, Enterprise Architecture, Data Management, IT Security, Infrastructure Operations, IT Accessibility, Budget and Acquisition.

Prior to her selection as Deputy CIO, she was the Executive Director of the Enterprise Business Management Office within the DHS Office of the CIO. She also served as the Deputy Program manager for the Border and Transportation Security IT Integration Program. Margie has private sector experience in the management consulting industry, where she held executive positions and also performed consulting engagements for clients. She holds a M.B.A. from the University of Virginia Darden School of Business and a B.S. in Chemistry from the University of Virginia.
