## DoD CIO Cyber Workforce Website

The DoD Cyber Workforce Framework (DCWF) is a guide for military and civilian leaders and others responsible for organizing, managing, and reporting on cyber work. To assist them, the CIO partnered with DISA to develop an interactive online tool for navigating the DCWF’s Categories, Specialty Areas, Work Roles Tasks, and Knowledge, Skills and Abilities (KSAs). The DCWF Tool is available at [https://public.cyber.mil/cw/dcwf/](https://public.cyber.mil/cw/dcwf/).

**R140 Policy Series**

The Directive remains in Legal Sufficiency Review awaiting the General Counsel’s signature. Following signature, the Directive will undergo a Security Review. The Instruction received concurrence from USD(I&S) and USD(P&R) and now is awaiting concurrence from SECAF. After formal coordination, the Instruction moves to Legal Sufficiency Review. The Manual is now formatted according to WHS requirements. It is now awaiting a final CWMB decision regarding the inclusion of an experience credential to the foundational qualification area.
